Memorandum

To: David G. Jewett
U.S. Environmental Protection Agency
Office of Research and Development

From: John S. Zogorski *per David W. Jewett*
Chief, National Water Quality Laboratory
Branch of Analytical Services

Subject: Administrative Report: "Transmittal of Contract Laboratory Results and Evaluation of Laboratory-Specific Quality Control Measures, U.S. Environmental Protection Agency Monitoring Well MW02, Pavillion, Wyoming, 2012," by Gary L. Cottrell and Donna N. Myers

The U.S. Geological Survey (USGS) National Water Quality Laboratory (NWQL) is transmitting the above-referenced Administrative Report. This Report was approved by the USGS on August 30, 2012, and is a mechanism for the USGS to transfer TestAmerica Laboratory (TAL) analyses to the U.S. Environmental Protection Agency.

Administrative Reports are not citable but are a concise way to transfer data. Included in the packet are the report and a CD with all electronic files (report and appendixes with TAL data).
